

Monitor, Manage & Build Your Reputation!

An easy way to hear what customers are saying and quickly react.

More than just a reputation monitoring tool, we provide an entire suite of products that work together as a complete online branding solution for your business.

Respond to customer reviews

Locate & correct directory listings

Monitor one location...or several

Sync campaigns across ALL social media thru single dashboard

Track EVERY click!

Are you getting the returns you expected from social media?

Is it a challenge finding time to keep ahead of comments?

VISIBILITY

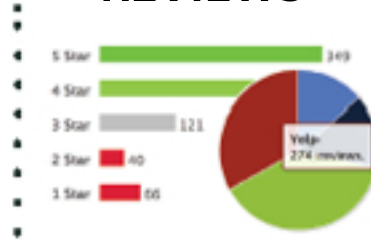

Verify the accuracy of online business listings across review sites, directories & social media. Inconsistent listing data can lead to poor placement in search results.

MENTIONS

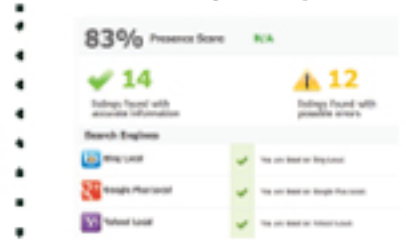

Compile mentions from unstructured sources, including news sites, blogs & social media. Highlight the most positive & negative mentions using sentiment analysis.

REVIEWS

Pull in results from major review websites to view overall scores & see which keywords customers are using to describe your business.

REPORTS

Weekly reports break down how a business is fairing in conversations, providing actionable information for your planning. Alerts are also sent every time a new mention is found.

Let us show you how easy and affordable it can be!
